

## **Press Release**

### **UFO Moviez and DCDC Partner to Bring Indian Cinema to Audiences Across North America**

**Mumbai, India & Los Angeles, California | August 7, 2026** – UFO Moviez India Limited (UFO Moviez), **India's largest cinema technology, content solutions, film distribution, and in-cinema advertising company** and Digital Cinema Distribution Coalition (DCDC), the leading provider of digital cinema content delivery across the United States, today announced a strategic partnership to facilitate the distribution of Indian feature films across North America.

The partnership marks a significant step in expanding the global footprint of Indian cinema by enabling faster, more secure, and seamless digital delivery of films to exhibitors across North America.

The collaboration combines UFO Moviez's deep relationships with Indian filmmakers and content owners with DCDC's industry-leading digital cinema delivery network, providing a streamlined and reliable pathway for Indian films to reach thousands of cinema screens across North America.

As interest in international cinema continues to grow, the partnership is designed to make it easier for distributors and exhibitors to bring a broader range of Indian films to new audiences while simplifying the delivery process through DCDC's secure, industry-leading network.

**Rajesh Mishra, Group CEO, UFO Moviez, said:**

*"We are delighted to partner with DCDC as we expand opportunities for Indian films in one of the world's most important theatrical markets. DCDC's network offers unmatched quality, reliability, and reach across North America, making them the ideal partner to help connect Indian filmmakers with a broader network of exhibitors. We believe there is tremendous opportunity to grow audiences for Indian cinema throughout North America."*

**Howard Kiedaisch, Chief Executive Officer, DCDC, added:**

*"UFO Moviez is one of the most respected and innovative companies in the Indian film industry, and we are thrilled to partner with them. American audiences have an increasing appetite for diverse, high-quality international content, and Indian cinema continues to captivate audiences with some of the world's most compelling stories. Together with UFO Moviez, we look forward to helping more of those films reach wider audiences."*

The partnership reflects both companies' shared commitment to expanding access to premium theatrical content while leveraging best-in-class digital cinema technology to simplify distribution and enhance operational efficiency for distributors and exhibitors alike.

Building on the successful North American release of **Bandar**, UFO Moviez and DCDC will continue their collaboration with the upcoming release of **The Indian Story**, reinforcing their shared commitment to bringing premium Indian cinema to audiences across North America.
